in Aditi Navhal

Summary

Software Engineer with **3 years of experience** building and modernizing enterprise applications using **C#, .NET Core, React, TypeScript, SQL, and REST APIs**. Experienced in end-to-end product development, secure authentication and RBAC, payment integrations, data-intensive financial systems, and reliable offline-to-cloud synchronization. Strong foundation in **OOP, system design, API development, testing, database design, and Agile delivery**.

Experience

Software Engineer *WFYI Technology - FylFlix*

*Delhi NCR, India
Jan 2026 – Present*

FylFlix Platform - B2C, B2B, Legal & Admin

- Owned development across **four FylFlix product surfaces**, building reusable React/Next.js components and a shared design system using **TypeScript, Radix UI, and Tailwind CSS**.
- Delivered a B2B platform covering **100+ services**, including search and discovery, analytics dashboards, document workflows, calendar features, and **multi-organization RBAC**.
- Integrated **Razorpay payments and subscriptions**, implementing polling-based payment verification, idempotent activation, configurable plans, and GST invoice workflows.
- Built Legal workflows for lawyer booking, quotations, cart and checkout, and real-time-style messaging with pagination and unread indicators.
- Designed and implemented shared authentication and workspace flows using **OAuth 2.0, JWT authentication, Google OAuth**, secure callbacks, and refresh-token handling.

Tally Connector - .NET Offline-to-Cloud Synchronization

- Built a **.NET 10 / C# Windows Service** synchronizing data across **26 TallyPrime entities** with AWS S3 and PostgreSQL-based cloud workflows.
- Designed durable delta-sync and idempotent write-back mechanisms using SQLite-backed processing and reconciliation safeguards to prevent duplicate financial postings.
- Secured the service using **OAuth 2.0 client credentials, encrypted secrets, secure IPC, structured logging, and automated xUnit testing**.

Software Engineer *(Promoted from Associate Software Engineer) Indus Valley Partners (IVP)*

*Mumbai, Maharashtra
Jul 2023 – Jan 2026*

RECON - Hedge Fund Reconciliation Platform

- Modernized a legacy financial application from **.NET Framework to .NET Core + React**, contributing to a **30% performance improvement** and **25% faster release cycles**.
- Developed end-to-end modules across **SQL database design, .NET Core REST APIs, and reusable React components**, contributing to **10+ production feature releases**.
- Built reconciliation workflows for hedge-fund operations and improved reporting accuracy through validation, data-processing, and workflow enhancements.
- Conducted peer code reviews and mentored junior team members while collaborating with QA, product, and client-facing teams.

Client Engagements - PwC, Carronade Capital & Aurelius Capital Management

- Developed and automated **100+ SSRS financial and compliance reports** covering Taxlot, Gain & Loss, Security Master, liquidity, counterparty, and portfolio reporting.
- Enhanced **SQL/SSIS ETL pipelines**, reducing major reporting workflows from approximately **6 hours to 2 hours** and improving month/year-end processing efficiency.

Skills

Backend: C#, .NET Core, .NET 10, REST APIs, JSON, Windows Services, OOP

Frontend: React, Next.js, TypeScript, JavaScript, React Query, Zustand, Tailwind CSS, Radix UI

Databases & Data: SQL, PostgreSQL, MySQL, SQLite, Database Design, Indexes, Views, SSRS, SSIS, ETL

Security & Architecture: OAuth 2.0, JWT, RBAC, Idempotency, System Design, Application Architecture

Testing & Tools: xUnit, Unit Testing, Git, Agile/Scrum, Serilog **Cloud:** AWS S3

Education

Mukesh Patel School of Technology Management & Engineering (NMIMS)

2019 – 2023

B.Tech in Information Technology

- CGPA: 3.99/4.00 | Ranked #1 in Program | Top 1%**

Achievements

- Led a team of 3 on a core application re-architecture initiative; Head of Atrangi Art Committee, Ambiora Tech Fest & Youth Speaking Forum, NMIMS; State-level Badminton Player.
