Aditi Navhal

Product Manager (FinTech / B2B) · LegalTech · 0-to-1 Products · Workflow Automation

Delhi NCR, open to relocation | aditinavhal01@gmail.com | +91-8769589069 | LinkedIn | Portfolio | Immediate joiner

SUMMARY

Engineer-turned Product Manager with a strong foundation in 0-to-1 product development, FinTech workflows and customer research. Adept at translating customer and operational pain points into PRDs, user stories and shipped releases, leading cross-functional teams of up to 10. At FylFlix, owned **four product surfaces (B2C, B2B, Legal and Admin)** from discovery to go-to-market, reaching **500+ ITR sign-ups** and **380+ paid filings** in one filing season.

PROFESSIONAL EXPERIENCE

Software Engineer (Product Ownership), WFYI Technology – FylFlix Jan 2026 – Aug 2026 | Delhi NCR

- Owned product decisions with the founders, leading a team of **up to 10**: engineering, QA, marketing and social.
- Built the roadmap from **100+ customer conversations**; aligned founders, CAs and lawyers on trade-offs.
- Prioritised with MoSCoW: cut the staff admin MVP to 4 roles and deferred 13 features with revisit triggers.
- Wrote PRDs, BRDs, user stories and acceptance criteria; wireframed flows in Figma and Google Stitch.
- Ran sprints in Jira and Notion, led UAT against acceptance criteria and made the go/no-go call.
- Chose WhatsApp over a portal for invoice collection and bounded the Gemini tax projection to two outputs.
- Owned monetization: discount codes lifted checkout conversion **~25%** in A/B tests.
- Ran funnel analysis from sign-up to paid filing and tracked user retention in Google Analytics and Mixpanel.
- Led ITR-season and Tally Connector go-to-market (**20 installs** in week one): **12 business**, **7+ legal clients**.

Software Engineer, Indus Valley Partners (IVP) (promoted from Associate) Jul 2023 – Dec 2025 | Mumbai

- Client-facing with Aurelius Capital on a hedge-fund reconciliation platform; also PwC and Carronade.
- Ran requirement calls, demos, UAT and root-cause analysis on data breaks for the client.
- Wrote user stories with acceptance criteria for BAs and engineers; planned sprints in Azure DevOps and Jira.
- As team lead, decided release readiness and took features through QA until they were cleared for production.
- Built **100+ compliance reports** and their SQL, cutting a key workflow from **~6 hours to 2**.
- Led a **3 to 4 person** team through a re-architecture: **30% performance gain**, **25% faster releases**.

PROJECTS

UrjaSetu BioEnergy, 0-to-1 B2B Platform (client project) Sep 2026 – Present | Delhi NCR

- Ran 15 to 20 days of discovery with industrial buyers and boiler operators; wrote the PRDs and BRDs.
- Shipped with a 2-person team: a Fuel Finder and fuel calculator that qualify leads, plus an ops dashboard.
- Defined KPIs such as quote requests per week and set up KPI tracking across **15+ analytics events**.
- Built market-sizing and unit-economics models; planned go-to-market on IndiaMART and Google.
